

Awesome Adaptations

Explore the various adaptations of Alaskan animals through a hands on experience with real and replica furs, tracks, antlers, horns, skulls, scat, and more. Students will complete activities and participate in discussions to learn about the unique adaptations that allow Alaskan animals to thrive in their environment.

Program Length: 1 hour

Grades: 3 - 12

Objective: Students can identify adaptations and how they benefit Alaskan animals.

Relevant Learning Standards: 2-LS4-1, 3-LS3-2, 3-LS4-3, 3-LS4-2, 4-LS1-1, MS-LS4-2

Outreach option: This program can be led at AWCC during a field trip or travel to your school or organization.
